

## **Suggestion-1:**

Please add the following content in the “**About us**” section. These are the highlights of our activities- Please do the required graphics and animations. You may also add a few related photos in this section.

### **Reasons for choosing us:-**

- ✓ The qualified, experienced, professional, and energetic engineering team is our prime strength.
- ✓ We make sure the satisfaction of the client by strictly maintaining the trust, quality & promises to grow up.

### **Our Activities:-**

#### **What We Do**

We provide turn-key solutions for MEP and Building Services including the following activities--

### **Activities related to MEP:-**

- Quality Design
- Supply of high-quality equipment and products from the well-reputed manufacturers
- Installation, Testing, Commissioning & Maintenance of Air-Conditioning Systems for residential, commercial & Industrial applications.
- Installation, Testing, Commissioning & Maintenance of Power & Electrical equipment in various sectors.
- Installation, Testing, Commissioning & Maintenance of Plumbing & sanitary products.
- Installation, Testing, Commissioning & Maintenance of various equipment for Data Centre, IT & critical infrastructures including cooling, power, Raised access floor, Digital leak detection systems, Fire fighting, security & monitoring systems etc.

## **Building Services:-**

- Supply and installation of various building materials
- Floor & Wall Tiling activities
- Marble polishing
- Masonry & Plaster works
- Wallpaper installation
- Installation of false ceiling & light partition
- Carpentry & wood flooring works
- Professional painting works
- Building cleaning services

## **Suggestion-2:**

Please add the following contents in the **“Service”** section. These are the details descriptions of our services- Please do the required graphics and animations. Also, please add the following related photos in each content.

## **System Design:-**

- ✓ We provide competitive capex, Low opex & ROI (Return on Investment) basis Design especially focusing on energy optimization & savings options.
- ✓ Sustainable solutions
- ✓ Customized & alternative solutions as per the conditions of the project.
- ✓ Value engineering
- ✓ Compliance with the local laws and regulations.

## Solutions & Services:-

- ✓ Turn Key Solutions including design, supply, installation, Maintenance, Testing & Commissioning of MEP systems.
- ✓ Supply & installation of building materials
- ✓ Re-furbish and renovation services of the existing building.

## Air-Conditioning & Venation Systems:-

- ✓ HVAC systems for residential, commercial & industrial applications.
- ✓ Piping, Ducting & Cladding works
- ✓ Cooling solutions for critical infrastructure & environment -i.e- Data Center / Server Room, IT, Telecom, and research laboratories.

## **Major products:-**

We Supply the following high-quality equipment and products from well-reputed manufacturers-

- ✓ Chiller, Chilled Water Pump, AHU, FCU, VRF Systems, Window Air-Conditioner, Split Air-conditioner, Package type, Floor-standing Air-conditioner etc.
- ✓ Cooling units for Data Center, IT, Telecom shelter & critical infrastructure- Precision cooling units, Close control units, Down Flow, Up flow, In-Row Cooling, DX type, Chilled Water Type, Combination of DX and Chilled water etc.
- ✓ Generators & Uninterruptible Power Supplies (UPS)
- ✓ Grilles & diffusers for air distribution systems
- ✓ Water heater for residential & commercial applications
- ✓ Access control Systems
- ✓ CCTV Systems
- ✓ Raised Access Floor
- ✓ Perforated panels
- ✓ Floor & Wall Tiles
- ✓ Wooden floor
- ✓ False Ceiling
- ✓ Digital Leak Detection equipment etc.

## Products:-

## After Sales Supports: -

- ☞ Supports during the warranty period
- ☞ O & M Training
- ☞ Final handover document

## Quality & Efficient Maintenance:-

- ☞ Annual Maintenance Contract (AMC)
- ☞ Regular Preventive maintenance
- ☞ Corrective maintenance
- ☞ Spare Parts
- ☞ Emergency support (24 ×7 in 365 days)
